### About

Hello! I am Ahmed ElSawi. General IT, Networking, Web Developer, Graphic Designer.

I have always been a great problem solver, and a technophile obsessed with the latest devices. I started learning to code when I was a teenager, though it was always more of a hobby than a career focus. After a college education in Psychology, and continuing to pursue that hobby, I realized software engineering was the right field for me. Since then, I've worked on countless freelance projects and have been involved with a handful of notable startups. I'm familiar with a variety of programming languages, including JavaScript, HTML, CSS, Python, Ruby, jQuery, and AngularJS, but I'm always adding new skills to my repertoire. I'm also eager to meet other software engineers in the area, so feel free to connect!

### Basic Information
